#### **TECHNICAL SUPPORT AND SERVICES**

If you have questions about installing or using this software, check this and other documents first - you will find answers to most of your questions here or there. If you need further assistance, please contact us.

#### **MANUAL**

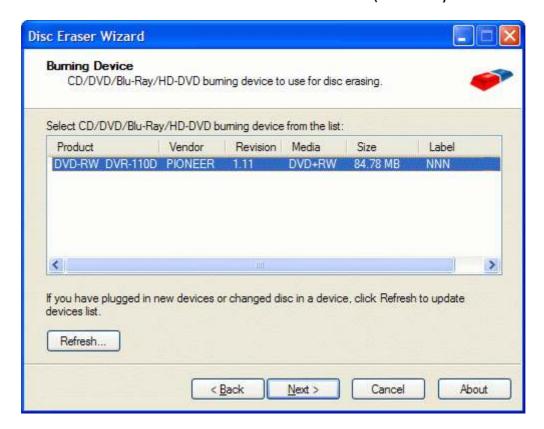

Welcome to **Disc Eraser Wizard** dialog appears.

Press the **Next** button to continue.

If the disc hasn't been inserted into the drive yet please insert it and press **Refresh** button. Choose a burner from the list (the one you have inserted disc to).

Press the **Next** button to continue.

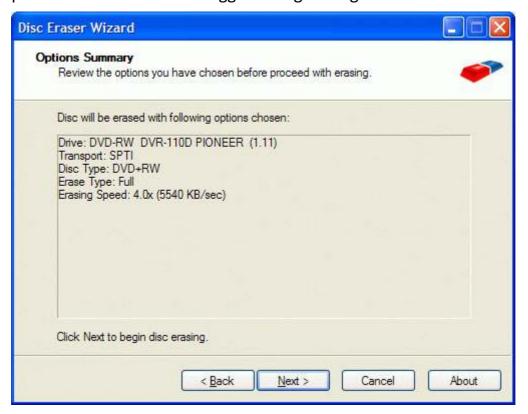

Select erase type (full erase or fast erase) and actual erasing speed.

Press the **Next** button to continue.

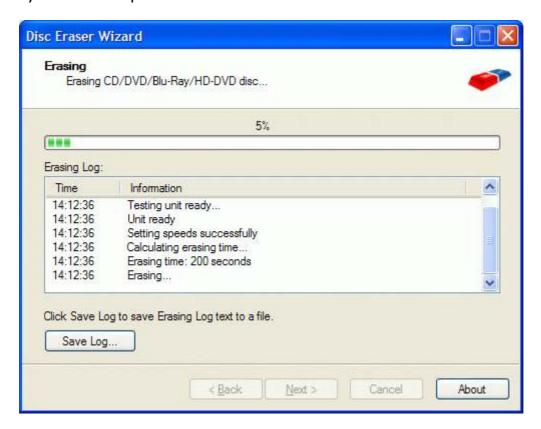

Please review the options summary and make sure all of the options are correct ones (have been set by you on previous pages). If you need to apply any changes press the **Back** button to toggle wrong settings.

Press the **Next** button to begin erasing the disc.

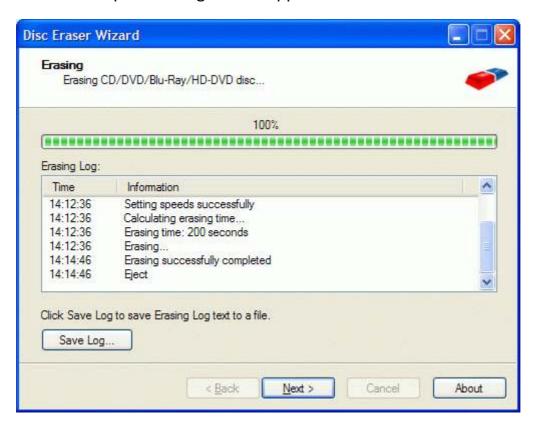

Erasing is in the progress. You cannot safely cancel erase as it is "blocking" synchronous operation...

When erasing is complete optionally you can save the log by pressing **Save Log** button. This option is useful when erasing problems occurred and you'd like to send failed operation log to the support.

Press the **Next** button to continue.

Completing the **Disc Eraser Wizard** dialog appears.

Press the **Finish** button to exit the wizard.
